

PHOTO & VIDEO TIPS

VIDEO TIPS

1. Put your smart phone in Airplane mode.
2. Use natural light if possible.
3. If you have a tripod, use your headphones to start and stop video.
4. If you don't have a tripod, rest your elbows on a flat surface or hold your upper arms tightly against your body.
5. If you don't have a microphone, use a second smart phone to record audio.
